

From March 13, 2017 through May 5, 2017 demolition and reconstruction activities will be performed on the front entrance steps to the Water Utilities Building. During this time, the front entrance will not be accessible. Access to the Water Utilities Building for both the public and employees will be through the door located on the eastern side of the building (opposite the Municipal Court). Temporary signage will be posted to direct the public to this alternative entrance. In addition an area encompassing the first three rows of the parking lot in front of the Water Utilities Building will be cordoned off for equipment and roll off container storage and no parking will be permitted in this area. Thank you for your cooperation.
